

Brooklawn

Kentucky Bluegrass

Affordable High Quality Kentucky Bluegrass

One of the top goals in Kentucky Bluegrass breeding has been to get a top performing variety that yielded enough seed to make it economical for the turfgrass user. **Brooklawn Kentucky Bluegrass** is the solution.

With exceptional color, strong Spring green-up, and tolerance to both shade and disease, **Brooklawn** is the best combination of quality and affordability.

Let us show you why **Brooklawn Kentucky Bluegrass** may be the best new addition to your inventory.

Brooklawn is a Blue Tag certified grass seed ideal for sports field, parks and recreation, and landscaping applications, as well as sod production.

Brooklawn

Kentucky Bluegrass

The development of **Brooklawn Kentucky Bluegrass** was centered on providing the highest quality turfgrass at a cost that made it affordable to the widest possible audience. NTEP trials demonstrate that the quality is there, and we've ensured that few grasses can match its value.

Disease Resistance:

Brooklawn doesn't get powdery mildew or crown rust, making it an excellent choice for blending with other Midnight Type Bluegrasses. NTEP trials showed exceptional resistance to both Typhula Blight and Necrotic Ring Spot.

Quick Establishment:

Sod producers will appreciate the aggressive rhizomes in **Brooklawn**, ensuring fast establishment.

High Turf Quality:

Affordability means little in turfgrass without maintaining turf quality. **Brooklawn** has proven quality, demonstrated with a shade tolerance quality rating in the Top 5 of all Kentucky Bluegrasses submitted, and a genetic color rating of 5.9.

Midnight Type - Ideal For Blending:

With strong Spring and Winter density, **Brooklawn** works very well in blends with other Midnight Types. The aggressive rhizomes make it ideally suited for sod production blends.

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
