

# OVERSEEDER® II

## Mixture

### SPECIAL FEATURES

- Superior spring, summer and fall performance
- Strong recuperation from scuffs and divots
- Excellent cold hardiness and tolerance to midsummer stress
- Fine-textured turf with a rich dark green color
- Excellent broad-based disease resistance<sup>95</sup>

### FORMULA

- 70% 3 of 5 Kentucky bluegrasses:  
**Award, Everest, EverGlade, Liberator, NuGlade**
- 30% 2 of 4 perennial ryegrasses:  
**Accent, Caddieshack II, Top Gun II**

### AGRONOMIC CHARACTERISTICS

**Overseeder II**  
IT'S NOT JUST FOR OVERSEEDING ANY MORE

**Overseeder II** is designed for establishment and renovation of turf areas damaged by necrotic ringspot, summer patch, *Poa annua* infestation, and traffic. The mixture produces an elite turf with broad environmental tolerance. It is adapted for

golf courses, athletic fields, homelawns, and sports turf.

Kentucky bluegrasses were selected for superior resistance to summer patch and leaf spot diseases and also provide superior resistance to dollar spot, red thread and snow mold. **Overseeder II** will provide excellent spring, summer and fall vigor and superior turf quality.

### SUGGESTED SEEDING RATES

New Seeding	125 - 200 lbs./acre
Overseeding	75 - 125 lbs./acre
