

The Disease-Resistant Overseed Ryegrass

Laredo II combines a high resistance to Gray Leaf Spot and high endophyte counts with superior ground coverage to make it an excellent choice for Winter overseeding.

This Perennial Ryegrass exhibits a dark green color and exceptional uniformity – perfect for blending with Kentucky Bluegrass or Fescue, or as a stand-alone turfgrass.

Choose a lush, full and disease-resistant ryegrass for your overseeding. Call us for details and purchasing information.

Laredo II is a Perennial Ryegrass seed ideal for winter overseeding in golf and sports field applications.

University trials - conducted across the U.S. - have shown **Laredo II** to be not only a "Top Ten" Turf Type Perennial Ryegrass, but in many cases, the absolute top among competing turfgrasses.

Laredo II has been the leader in:

- **Color Ratings**
- **Texture**
- **Average Weekly Ground Cover**

These trials were conducted by leading turfgrass programs, including:

- **The University of Florida**
- **Mississippi State University**
- **The University of Arizona**

Laredo II becomes the obvious choice for Perennial Ryegrass Winter overseeding when considering the disease and pest resistance this turfgrass offers:

- **High endophyte counts for protection against turf insect pests**
- **High resistance to Gray Leaf Spot**

You no longer have to continue to battle pests and disease that mean poor playing surfaces... Make the choice that gives you color, coverage and performance: **Laredo II**.

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
