

# Manhattan™ 6 GLR™

## The Number One Salt-Tolerant Ryegrass

**Manhattan 6 GLR** sets apart from other Perennial Ryegrasses in its salt tolerance, far exceeding even the closest comparative cultivar in an NTEP trial.

Owing its name from a clone discovered in the famed Central Park, **Manhattan 6 GLR** has earned its New York City designation through flourishing in the toughest salinity environments.

Fine texture and dark color make it an excellent choice for mixing with other species for home lawns, parks, golf courses and stadiums – especially where reclaimed or effluent water is used.

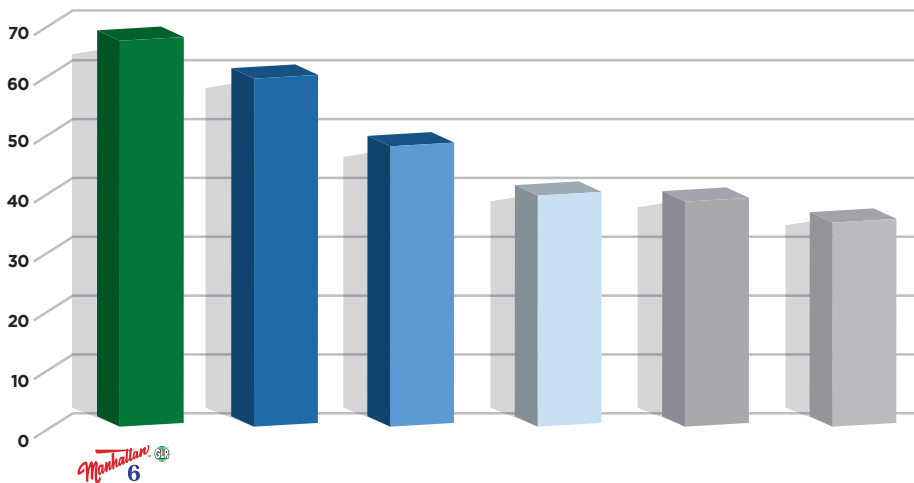

**Manhattan 6 GLR** is a Blue Tag certified grass seed ideal for sports field and golf applications, including new seeding and overseeding.

# Manhattan<sup>TM</sup> 6 GLR<sup>TM</sup>

**Manhattan 6 GLR** was the number 1 entry in a NTEP trial for salt tolerance. This variety had an amazing ground cover of 69.3% at 15,000 ppm of salt when most of the entries were dying or already dead.

**NTEP Percent Cover Ratings of Perennial Ryegrass Salt Tolerance**

The exceptional salt tolerance of **Manhattan 6 GLR** makes it eligible for our Prosaline<sup>TM</sup> line of salt tolerant grass seed mixtures which include Oceania Maritima and Salton Sea Alkaligrasses.

**Manhattan 6 GLR** is not only number 1 in the NTEP for salt tolerance, but has improved Gray Leaf Spot Resistance, a dark green color, and dense crowns.

## Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
