

## NO MOW LAWN SEED MIXTURE

Seed mix contains:

- 30% Nakiska Sheep Fescue
- 70% Hard Fescue (3 Improved Varieties)

*No Mow will have great appeal for environmentally conscious individuals. Once established, it will be drought tolerant, require little mowing and very little fertilizer.*

Seed Mix Features:

- \*\*Utility areas
- \*\*Lots requiring reduced time and maintenance costs
- \*\*Transition areas between closely mowed turf and wooded areas
- \*\*Great alternative to weedy lots
- \*\*Light to moderate shade

Recommended Seeding Rates:

New seeding rate: 5-5 lbs. per 1,000 square feet  
(bare, cultivated soil)

Overseeding rate: **NOT RECOMMENDED** (texture does not match & it's slow Growth makes it difficult to get established among existing grasses.)

Locally blended in Akron, Ohio
