DIRECTIONS FOR USE

Apply only as directed. Apply during the growing season.

Application Rates:

LOW RATE:	1.55 lbs./1,000 sq. ft.
MEDIUM RATE:	3.15 lbs./1,000 sq. ft.
HIGH RATE:	4.70 lbs./1,000 sq. ft.

For all applications:

- Apply to dry foliage.
- Water in after application with a minimum of 0.2 inches to help move particles into the turf canopy.
- Do not collect clippings for at least one mowing following application to avoid particle pick-up.

Cool Season Grasses:

- Apply at the MEDIUM RATE.
- Apply at the LOW RATE when temperatures exceed 85°F.

Warm Season Grasses:

- Apply at the MEDIUM or HIGH RATE every 4-6 weeks during the period of active growth.

Recent research has shown that well-maintained turf is an effective environmental buffer that prevents pollutants from entering our natural water bodies. To help protect these natural resources, avoid applying product to sidewalks, driveways, roadways, and other impervious surfaces. Sweep any misplaced granules back onto the area you are treating immediately after application, since storm drains often empty directly to nearby waterways.
