

MIL-CHEM 22-4-8 TURF FERTILIZER 40 LBS.

Specially balanced blends of Milorganite and chemical materials in a professional fertilizer designed for golf course greens, tees, fairways, and other fine turf areas. The MILORGANITE portion provides time-release, controlled feeding for long lasting, uniform results.

The CHEMICAL portion releases rapidly for quick improvement of turf color and density.

Non-burning, high organic MIL-CHEM 22-4-8 contains over 22% MILORGANITE and is fortified with 1% Iron.

GUARANTEED ANALYSIS:

- Total Nitrogen (N).....22.0%
 - 1.5% insoluble nitrogen derived from Milorganite
 - 3.0% controlled release nitrogen derived from sulfur coated urea
 - 17.5% soluble nitrogen derived from ammoniated phosphates and urea
- Available Phosphoric Acid (P₂O₅).....4.0%
- Water Soluble Potash (K₂O).....8.0%
- Iron (FE).....1.0%

COVERAGE: One bag will treat 10,000 sq. ft
