

TRAVERSE 2 SRP™

SELF-REPAIR POTENTIAL TALL FESCUE

The Advanced Self-Repairing Tall Fescue

TRAVERSE 2 SRP™ provides landscapers and sod producers an advanced variety of Tall Fescue that is a proven performer.

Producing rhizomes for self repair, improved Brown Patch resistance and traffic stress resistance (demonstrated in an NTEP trial), **TRAVERSE 2 SRP™** is a reliable choice.

Compact, dense, drought-tolerant, fine-leaved and boasting a dark green color, **TRAVERSE 2 SRP™** works as a stand-alone turfgrass, and mixes well with Kentucky Bluegrass!

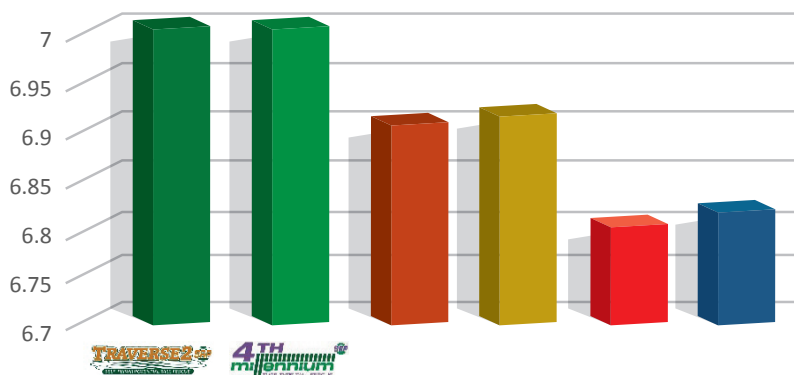

TRAVERSE 2 SRP™ is a Blue Tag certified grass seed ideal for sod production and landscaping in both sun and shade conditions.

TRAVERSE 2 SRP™ was rated highest in an NTEP trial for turfgrass quality among Tall Fescues in two separate trials: “LPI Group 1” and “Transition Region.”

Mean Quality Ratings – Grown In Nothwest Region

Mean Quality Ratings – LPI Group 1

KEY BENEFITS:

- Self-Repair from Wear and Divots
- Drought-Tolerant / Water Savings
- Traffic Wear Resistance
- Brown Patch Resistance

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
