

Durable Versatile Turf Type Tall Fescues

- + **HIGH RATED NTEP turfgrass quality**
- + **Great traffic tolerance for sports turf**
- + **High resistance to brown patch disease**
- + **HIGH RATED quality in all regions testing**
- + **Deep green and dense turf**
- + **High drought and heat tolerance**
- + **High resistance to gray leaf spot disease**

BULLSEYE LTZ turf type tall fescue is an all around excellent turf performer. It was rated in the top group in brown patch and gray leaf spot disease resistance in the most current testing. It is a very good performer in shorter mowed high maintenance athletic turf. For sports turf, it has a high traffic tolerance rating. Under taller mowing conditions with less fertility and irrigation, BULLSEYE LTZ ranks well in home lawn and commercial turf.

The variety establishes with ease, and has high density through all seasons. BULLSEYE LTZ fits well in an elite blend with many of the newest tall fescues, perennial ryegrass or Kentucky bluegrasses in turf mixes. It has an open foliar canopy to resist fungal attacks from brown patch disease.

BULLSEYE LTZ tall fescue is slower growing for less mowing. It provides a dense turf carpet in the summer and through the fall growing season. This variety is a successful performer in the traditional tall fescue use areas of the United States. BULLSEYE LTZ turf type tall fescue will work well for your golf rough and approaches, commercial turf or home lawn care needs.
