

WOOD FIBER

HYDRO-STICK

HH Wood Fiber's, Hydro-Stick is a high performing, easily dispersible, CLUMP FREE tackifier for use in hydroseeding, hydro mulching & in dust control applications.

Hydro-Stick can be dispensed easily by blending in a traditional hydraulic spraying machine or may also be used in a water truck equipped with liquid recirculation.

Hydro-Stick cures quickly and forms a uniform erosion control barrier which helps prevent erosion from both water and wind.

Hydro-Stick is Non-Toxic and is 100% Bio-Degradable and is safe to use on haul roads, roadside berms, or anywhere erosion is a concern.

Packaging: 40 lbs. (8-5 lbs. bags)

HYDRO-STICK

Slope	Rate per acre
Flat to Moderate	30-60 lbs.
4:1-3:1	50-100 lbs.
**Greater than 2:1	200 lbs.

**Utilize slope interruption devices to effectively reduce the length of slope applications.*
